

## WHAT IS CLAIMED IS:

1. An oral pharmaceutical composition comprising as pharmaceutically active compounds a combination of an antiallergy-effective amount of a leukotriene inhibitor or a pharmaceutically acceptable salt thereof, and of a decongestant-effective amount of pseudoephedrine or a pharmaceutically acceptable salt thereof, and further comprising pharmaceutically acceptable carriers or excipients with the proviso that the compositions do not contain an antihistamine.
- 10 2. A composition of Claim 1 wherein said leukotriene inhibitor is a leukotriene receptor antagonist.
- 15 3. A composition of Claim 2 wherein said leukotriene receptor antagonist is montelukast or a pharmaceutically acceptable salt thereof.
4. A composition of Claim 2 wherein said leukotriene receptor antagonist is montelukast sodium.
- 20 5. A composition of Claim 1 in solid dosage form.
6. A composition of Claim 5 wherein said dosage form is a tablet.
- 25 7. A composition of Claim 6 wherein said tablet contains montelukast sodium in an amount selected from 4mg to 20 mg, and pseudoephedrine or a pharmaceutically acceptable salt thereof in an amount selected from 60 mg to 240 mg.
- 30 8. A composition of Claim 6 wherein said tablet contains montelukast sodium in an amount selected from 4 mg, 5 mg, 10 mg and 20 mg, and pseudoephedrine or a pharmaceutically acceptable salt thereof in an amount selected from 60 mg, 120 mg and 240 mg.
- 35 9. A method for the treatment of allergic rhinitis or asthma which comprises administering to a patient in need of such treatment a pharmaceutical composition of Claim 1.
